Pierre Delattre

Product Designer - UX/UI Designer - Lille

Portfolio / pierredelattre.fr Email / hello@pierredelattre.fr

UX/UI Product Designer specialized in accessible interfaces, design systems, and e-commerce journeys. Experienced in prototyping, front-end integration, and user research.

Professional Experience

Lira - Reader app for language learning
January 2026 - March 2026

Co-designed the product from strategic ideation to final product design. Identified opportunities and friction points in continuous-reading language learning. Built a UI Kit, hybrid navigation (pagination, scroll, keyboard), and multi-device ergonomics (PWA).

Freelance Projects
February 2025 - October 2025

Designed showcase and e-commerce websites: needs analysis, Figma prototyping, and iterations to clarify user journeys. Conducted user research (feedback, short interviews, analytics) and delivered recommendations to improve the experience.

Tikamoon - Product Designer Apprentice
2022 - 2024

Contributed to functional definition (stores, loyalty), improved key journeys (product page, customer account, variants) to reduce friction and improve conversion. Initiated the design system and improved accessibility.

Tikamoon - Graphic Designer & Web Integrator Apprentice
2021 - 2022

Handled front-end integration of mockups, content management (website and blog), and WordPress development (themes and plugins).

Education

Master's in UX/UI Design at ECV Digital Lille
2022 - 2024

UX Design, Product Design, design system.

Bachelor's in Digital Projects & UX/UI Design at WIS Lille
2019 - 2021

UX/UI, Graphic Design, Motion Design, Front-end and Back-end Development, and Communication.
