

Pierre Delattre

Product Designer - UX/UI Designer - Lille

Portfolio / pierredelelattie.fr Email / hello@pierredelelattie.fr

UX/UI Product Designer specialized in accessible interfaces, design systems, and e-commerce journeys. Experienced in prototyping, front-end integration, and user research.

Professional Experience

Freelance Projects Feb. 2025 - Present

Designed showcase and e-commerce websites: needs analysis, Figma prototyping, and iterations to clarify user journeys. Conducted user research (feedback, short interviews, analytics) and delivered recommendations to improve the experience.

Lira - Product Design Jan. 2026 - Mar. 2026

Designed the product from strategic ideation to final product design. Identified opportunities and friction points in continuous-reading language learning. Built a UI Kit, hybrid navigation (pagination, scroll, keyboard), and multi-device ergonomics (PWA).

Tikamoon - Product Designer Apprentice Sep. 2022 - Sep. 2024

Functional definition (stores, variants), improved key journeys (product page, customer account, variants) to reduce friction and improve conversion. First components of the design system and improved accessibility.

Tikamoon - Graphic Designer & Web Integrator Apprentice Sep. 2021 - Sep. 2022

Handled front-end integration of mockups, content management (website and blog), and WordPress development (themes and plugins).

Education

Master's in UX/UI Design at ECV Digital Lille 2022 - 2024
